

The Rose

Desborough Edition – Spring 2010

DESBOROUGH LEISURE CENTRE

Desborough is a growing community and part of that growth includes the building of a new Leisure Centre on the Grange to replace the existing facility. The Leisure Centre on the Hawthorns site opened in the 1970's and has seen better days.

**Councillor David
Coe wants a fair
deal for
Desborough**

We all want a new centre to be proud of that will serve the needs of the community well into the 21st century and that is why we need to influence decisions that are being taken now.

Councillor David Coe wants the current facilities replaced on, at least, a like-for-like basis. He says -

'As a community we do not want anything less than we have enjoyed for over 30 years; we want at least an equivalent if not better centre for the future.'

The current plans do not include a licenced bar and function room, a cricket pitch or full size football pitch and the squash courts will not be built in the first phase leaving local squash players with nowhere to practice and having to play all their matches away.

This is not good enough and I urge local residents to join the campaign to get a fair deal for Desborough.'

FORMER MP BACKS CAMPAIGN

Most people in Desborough know of David Coe's record as a sportsman. He played cricket and football for the town and for many years he organised and refereed the five a side competition as part of the Desborough Carnival celebrations.

David was a key member of the 'Friends of Desborough Leisure Centre' and now he wants to make sure that the current facilities are replaced on at least a like-for-like basis. If you agree with David please support him and your community in this campaign.
