If you have a problem, a point of view or just want a chat with your local Labour Party representatives then please come along.

Coalition Government economic policies are not working.

Unemployment is rising. At present it stands at 8.3% of the working population (2.96million people) the highest level for 18 years. The economy is shrinking, recent figures (ONS) indicate that economic activity continues to shrink and many now predict that we heading towards another deep recession.

Meanwhile the national debt has reached £1trillion and rising.

In order to reduce the budget deficit the coalition government it is cutting too far and too deep. Budget deficits can be reduced by economic growth - more people in work means the government gets more money in taxation and pays out less in benefits but where are the Governments policies for Growth?

“We are all in it together” says David Cameron but the cuts in government spending are hitting those on low and middle incomes hardest.

Labour’s five-point plan for jobs and growth in the East Midlands

1. Create up to 5,500 jobs for young people and build 1,400 new homes.
2. Bring forward investment projects like new school buildings.
3. Temporarily reverse the Government’s VAT rise - a £450 boost for families with children.
4. Cut VAT on home improvements to 5% for a year.
5. Give up to 140,000 small firms a tax break to take on extra workers.

There is a better way – There is an alternative.
