**Promises,
Promises...**

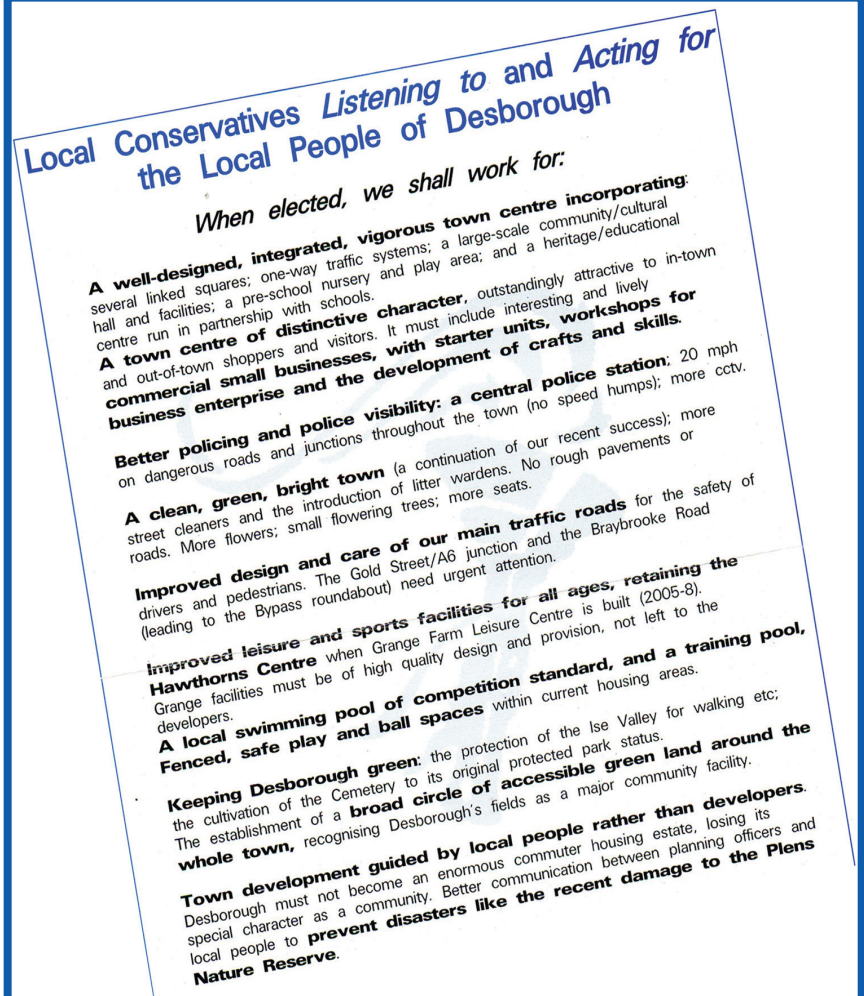

We take the unusual step of printing an extract from the leaflet which the Conservative Party distributed in Desborough in 2003.

After eight years of Conservative control of the Town Council local residents may wish to refresh their memory of the things they were promised.

It is one of the best (or worst) examples of 'Wish list' politics that you are ever likely to see.

Have a read, or better still, take a pen and tick the bits that they have delivered.

**VOTE FOR ACTION
